

▸ Superpad P

DESCRIPTION

Unique, multi-holed aluminum oxide foam backed discs with non-loading stearate. The patented design allows for continuous dust extraction and a nearly dust-free sanding process, delivering up to four times higher surface sanding performance than regular discs. Superpad P fits on all portable grinding machines, so there is no need to ever align your disc with a 5, 8 or 9-hole configuration on your sander.

OPERATION

Disc grips to appropriate backup pad. Attaches to a high speed or orbital vacuum sander.

APPLICATION

Ideal for basic sanding of woods, paints, drywall, metal, plastic, and solid surfaces.

TYPE	TYPE	SIZE	GRIT
HOOK N' LOOP	aluminum oxide	5" diameter	40-600
HOOK N' LOOP	aluminum oxide	6" diameter	40-600
HOOK N' LOOP	aluminum oxide	9" diameter	40-600
HOOK N' LOOP	aluminum oxide	11" diameter	40-600

▸ Superpad SG

DESCRIPTION

Superfinishing-Pad SG is a high-performance silicon carbide foam backed abrasive disc for finishing plane surfaces. It is up to four times more efficient compared to conventional abrasives, and may be used for wet or dry applications. Superpad SG fits on all portable grinding machines, so there is no need to ever align your disc with a 5, 8 or 9-hole configuration on your sander.

OPERATION

Disc grips to appropriate backup pad. Attaches to a high speed or orbital vacuum sander.

APPLICATION

Ideal for acrylic surfaces, solid surfaces, metals, reinforced plastic, paints, and varnish.

TYPE	TYPE	SIZE	GRIT
HOOK N' LOOP	silicon carbide	5" diameter	240-3000
HOOK N' LOOP	silicon carbide	6" diameter	240-3000
HOOK N' LOOP	silicon carbide	8" diameter	240-3000
HOOK N' LOOP	silicon carbide	11" diameter	240-3000
